**You provided
emergency food
and supplies to
partners in
Negros Oriental
in under a week**

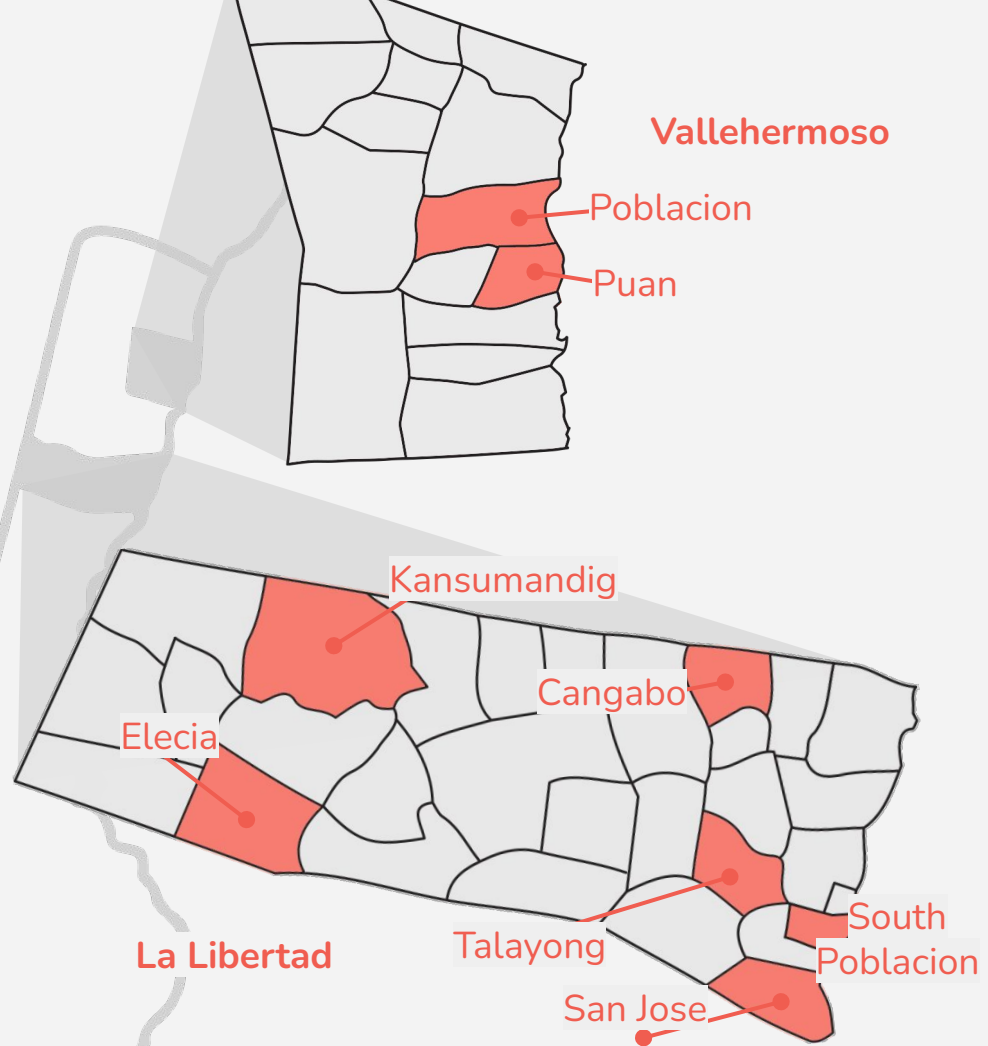

**Super typhoon Odette
made landfall in La
Libertad on Dec 17, 2021**

You secured 4,634 families and 16,539 individuals in 8 communities

Families # Lives

	# Families	# Lives
Total	4,634	16,539
La Libertad (6)	2,497	9,299
Vallehermoso (2)	2,137	7,240

Partners and families are deeply grateful that we were by their side

Cangabo's, Kagawad Wenevic shared that the families were so grateful to receive the relief goods.

“Even if their houses were destroyed, at least they didn't have to worry about securing their food through the holidays.”

“All families received relief, not just those whose homes were totally or partially damaged.”

You covered 5 days worth of food, and provided essentials to rebuild homes and replant backyards at \$8.50 or P424/family

Food

Rice	3 kilos	P 118
Canned Goods	10 cans	P 188
Lighter (Cooking)	1 pc	P 8

Hygiene

Soap / Shampoo	P 14
Detergent	P 15
Alcohol	P 12

Rebuild

Nails	P 34
Seeds	P 35

Total	P 424 / \$8.50
--------------	---------------------------

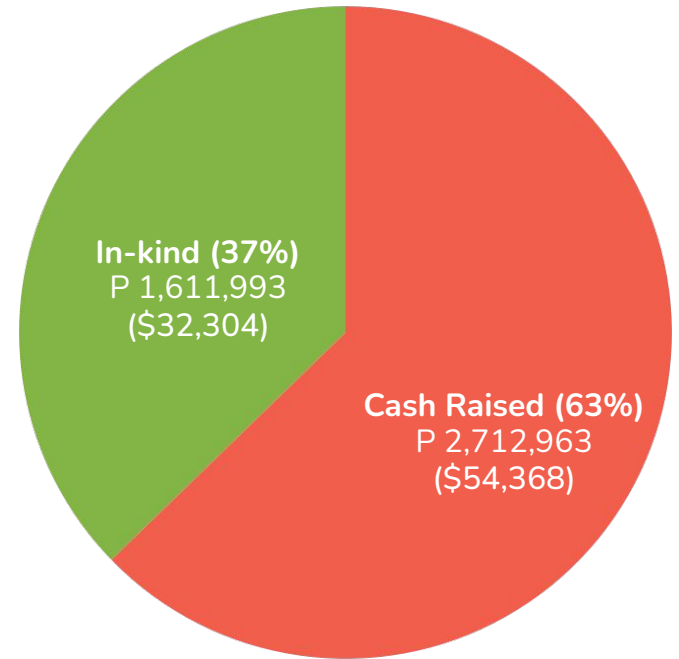

Other partners came through.
Office of CabSec, ABS-CBN,
East West Seeds donated
goods that were critical.

The 1st drop of government funds is
earmarked towards GI sheets,
while the communities were still
food insecure.

Office of CabSec Nograles secured
a slot on a private vessel, Philippine
Span Asia Carrier Corp., to get goods to
Negros Oriental

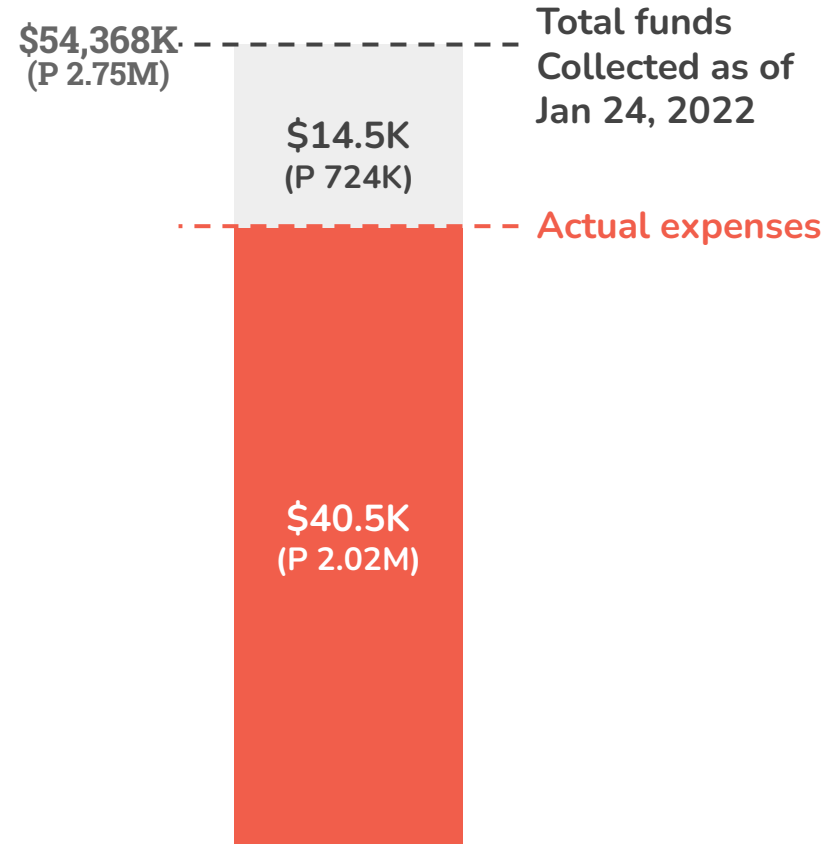

Together, with individuals, corporations, foundations in the US and Philippines and the national government, we gathered **\$87,354 (P 4,358,965) in relief resources**

Your impact is not done.

Of funds raised,
\$ 14,525 (P 724,798)
remains to be
allocated for
rebuilding and long
term food security.

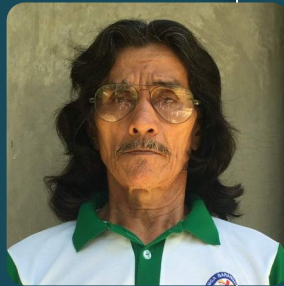

Relief Operation Story

It took 3 days from Odette landfall to finally get ahold of partners in La Libertad to learn about the destruction

Partners were in shock.

Cangabo's Kap Wilson was not his jolly self. He was reserved. "*isang tanong, isang sagot.*"

We reached him through his daughter-in-law, Rhea, who had a charged phone.

Kap Wilson

“

grabe yung damage

The damage is overwhelming.

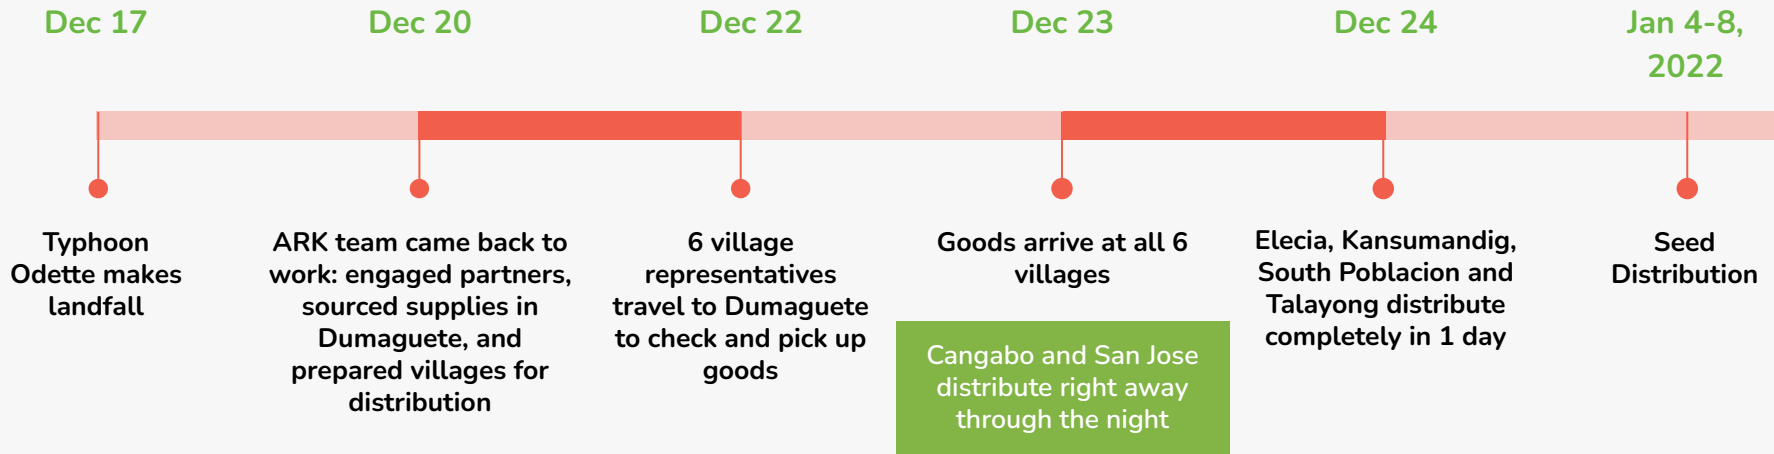

We had landslides, flooding and our homes and farms are destroyed.

Downed trees and telco lines were on the roads. Only motorcycles can pass.

Families who lost roofs are in evacuation centers or staying with their relatives.

Goal: Get **food and relief** to 100% of families before Christmas in 3 days

o La Libertad Timeline o

Coordinated with Mayor Iway for transport and secured supplies from Dumaguete, 3 hours away

Mayor Iway secured support from his cousin, **Lawrence Limkaichong III**, who lent a 10 wheeler to transport supplies for free

Supplies were running out. **ARK sourced from 4 places at wholesale rates:**

Lee Plaza - rice, canned goods, alcohol, lighters

D&E Grocery - detergent, soap, canned goods

LKC Hardware - nails

3GS Trading - seeds

Dependent on partners in **Manila** for water, more food and hygiene supplies

Prepared for swift, fair & secure distribution with village leaders and booth-style distribution

1. Feed Back teams coordinated
2. Village leaders split into 2 teams:
 - a. **Dumaguete-bound:** account and secure supplies
 - b. **In the village:** prep distribute site
3. Introduced **booth-style distribution**
Eliminated repacking, single use plastic, reducing time, talent and funds use
4. Village kagawads and tanods slept with, **secured supplies overnight**

The need in Cangabo was so urgent, leaders distributed as soon as the goods arrived and into the night

Families brought sacks and waited in the early afternoon

Village leaders set up booths and generators

Kap. Wilson served rice porridge to families standing by

When goods arrived, village leaders unloaded right away, organized the goods, made sure everyone had masks and washed their hands, and signed their claim stubs

It took them 6 hours, securing 420 families by 1am.

Vallehermoso had no signal. It took a week until we reached them and learned about the weight that village leaders are holding

From Poblacion's Kap Celso, we learned:

All the families and other barangay leaders were coming to him for help.

He would go to the barangay early in the morning and come back home late at night.

He was deeply grateful that we are standing by his side and his village.

Kap Celso

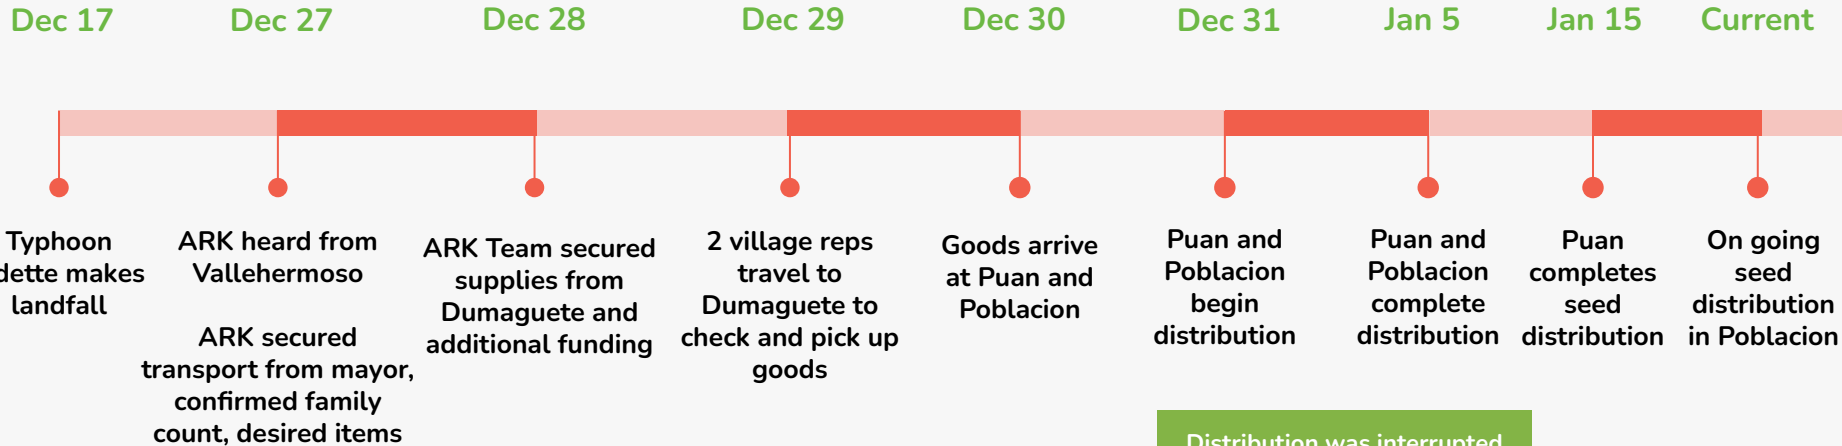

“

Pagkatapos ng Typhoon Odette ang unang nakapagbigay ng relief goods ay ang ARK... Sa national and local government wala pa pong binibigyan.

After Typhoon Odette, the first to give relief goods was ARK... The national and local government haven't given anything yet.

Goal: Don't leave anyone behind and secure Vallehermoso before the new year or in **4 days**

o Vallehermoso Timeline o

Distribution was interrupted by heavy rains.

Inspired, Kap Celso contributed his own money and raised funds from friends abroad to provide extra support to habal habal drivers and those who lost roofs

Kap. Celso:

Used remaining P 97K (\$1,943) of calamity fund and raised P 60K from friends to purchase rice and canned goods for 250 families of public transport drivers whose tricycles are damaged

Spent over P 10,000 (\$200) from his own pocket to buy GI sheets so families can repair homes

2nd wave of donations from Manila provided **additional food, soap and seeds** and were distributed on Jan 15th, 3 days after arrival in Dumaguete

Manila Timeline

Learning from last time, San Jose was able to hold a **smooth 2nd round of distribution** .

- 1st round:
challenge keeping families organized as they came to pick up their goods
 - 2nd round:
San Jose prepared in advance
- Both village team and families were very familiar with procedures.

According to Sec. Girly:
“Smooth ang distribution, parang nagtitinda lang.”

Audit and Look Back

In 2 tranches of relief, procured and donated items were accounted for and complete upon receipt

Audit process is clear and simple

Community reps manually counted goods

ARK confirmed completeness and accuracy of reports and receipts

In case of discrepancy, ARK solved with community same day

Discrepancy or loss is diminimous

Upon receipt, 1 box more from OCS,
2 boxes less from ABS

Upon division, 2 packs of arroz caldo,
3 packs of biscuits got lost

During distribution, leaders ensure that every family in their village gets their relief pack

Affirmation of Relief Good Claimants [EXIT]
Barangay Cangabo
Date: 01-15-2022 Page No: 4

Process aims for equal distribution

Village leaders takes attendance

Families sign or put thumbprint on claim stub or sheet

Village leaders set aside packs for seniors or families who could not come

Kapitan and Relief Team Leader certifies report

Immediately after distribution, ARK and Local Relief Team **audits records for accounting and improvement**

Validation of relief recipients (on-going)

ARK hired 2 relief leaders in La Libertad to audit the 6 brgy results; ARK audited Vallehermoso directly

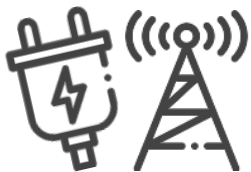

ARK and local team check number of families listed, presence of signatures/thumbprints, possible repetitions

Audit observations are shared with the community for their response/correction

the challenges of relief operations

Lack of electricity,
mobile and internet
signal

Insufficient local
supplies (paracetamol,
water, nails etc.)

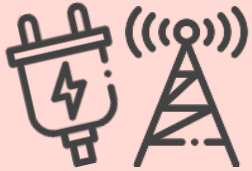

Absence of
transportation to bring
goods from Manila

Trauma and fatigue of
leaders from sheer
devastation and need

How we solve together

Lack of electricity,
mobile and internet
signal

Insufficient local
supplies (paracetamol,
water, nails etc.)

Absence of
transportation to bring
goods from Manila

Trauma and fatigue of
leaders from sheer
devastation and need

Solution:

- Relentless follow up on various platforms
- Villages with signal relayed info to those with none
- Mayor provided kerosene for generators

How we solve together

Lack of electricity,
mobile and internet
signal

Insufficient local
supplies (paracetamol,
water, nails etc.)

Absence of
transportation to bring
goods from Manila

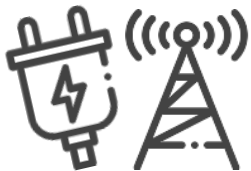

Trauma and fatigue of
leaders from sheer
devastation and need

Solution:

- Budget re-allocated to purchase more quantities of what is available and needed (eg. from 8 to 10 canned goods per family)
- Water was sourced from Manila and then returned when it was no longer needed
- Generators were used in water pumping stations to make water available
- Families boiled spring water for consumption

How we solve together

Lack of electricity,
mobile and internet
signal

Insufficient local
supplies (paracetamol,
water, nails etc.)

Absence of
transportation to bring
goods from Manila

Trauma and fatigue of
leaders from sheer
devastation and need

Solution:

- CabSec's office secured goods in a private boat

How we solve together

Lack of electricity,
mobile and internet
signal

Insufficient local
supplies (paracetamol,
water, nails etc.)

Absence of
transportation to bring
goods from Manila

Trauma and fatigue of
leaders from sheer
devastation and need

Solution:

- Check-in with mayors and village leaders
- Consultation on needs and priorities
- Balancing communication with text and calls
- Bayanihan within and beyond the barangay

Current Status

La Libertad and Vallehermoso are facing P 428.7M (\$8.6M) worth of damage with La Libertad taking the brunt of it

**Photos from MAO Markim Cu*

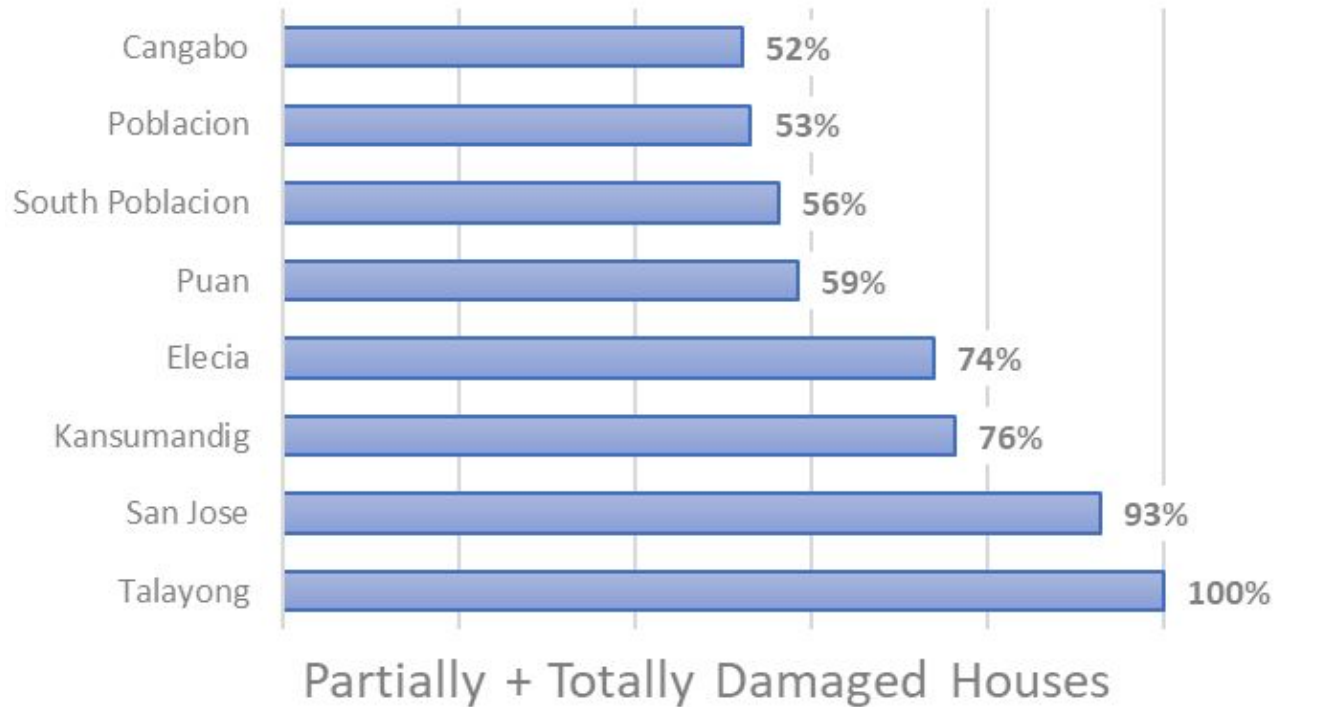

Most of the loss is in agriculture, 78% in La Libertad and 66% in Vallehermoso

Most of La Libertad's infrastructure damage are homes.

	La Libertad			Vallehermoso		
	Cost		%	Cost		%
Infrastructure	P 75,958,000	\$1,522,204	19%	P 8,565,000	\$171,643	38%
Crops	P 9,418,500	\$188,747	2%	P 7,582,400	\$151,952	34%
Fruits	P 134,040,000	\$2,686,172	33%	P 4,220,000	\$84,569	19%
Vegetables	P 990,000	\$19,840	0.2%	P 600,000	\$12,024	3%
Livestock & Poultry	P 12,626,000	\$253,026	3%	P 590,000	\$11,824	3%
Fishery	P 170,626,800	\$3,419,375	42%	P 950,000	\$19,038	4%
Others	P 2,566,000	\$51,423	0.6%			
Total	P 406,225,300	\$8,140,788	100%	P 22,507,400	\$451,050	100%

Out of 4,269 households in the 8 partner communities, **65% suffered damages (52% partially; 13% totally damaged)**

Rising COVID cases are another concern that looms over the communities

Negros Oriental

Alert Level 3 until Jan 31

22,219 reported cases
(0.65% of total cases in the country) in NegOr as of January 24

- **948 active cases**
- **606 dead**
- 20, 665 recovered

Alert Level 3	
Case Transmission	High &/or Increasing
Bed & Intensive Care Unit Utilization Rate	Increasing
Venue Capacity	max of 30% (indoor) & 50% (outdoor) for FVIs only

La Libertad has **78** confirmed cases, while Vallehermoso confirmed **36** cases

Resuming Feed Back

7 out of 8 Kapitans are already looking forward and preparing to restart Feed Back

Poblacion																									

Critical Dates

- January 16 - 31 NegOr under Covid-19 Alert Level 3
- February 7 - May 7 Campaign period for candidates of national elections
- March 7 or 14 ARK Insider Trip (Tentative)
- March 25 - May 7 Campaign period for candidates of local elections

Critical Next Steps of Relief & Recovery

-
- Jan 24 - 28**
 - ▷ Complete seed distribution
 - ▷ Monitoring of backyard gardens
 - Jan 31 - Feb 4**
 - ▷ Finalize Feed Back operations plan (Covid ops plan, venue, schedule)
 - ▷ Secure budget and prizes
 - ▷ Secure clearance from Covid-19 Municipal Task Force
 - Feb 7 - 11**
 - ▷ Communication plan to inform families on restart
 - ▷ Capacity Building/Playshop
 - Feb 14 - 18**
 - ▷ Restart of Feed Back (earliest)
 - ▷ Relaunch of Vertical Garden Contest

Feed Back Goals for Negros Oriental: food secure, supply the province, rebuild for self sustainability

1

Families are food secure

Have excess to exchange
or to sell

2

Families to start ventures

Supply food needs of their village, nearby villages and towns,
nearby supermarkets and relief operations

3

Families and communities to be resilient

Create a seed bank within the village

Have emergency water filtration, and tarps for next storm

Plant own construction materials (anahaw, bamboo) and wind barriers

We can deploy Feed Back-based emergency funds or remaining relief funds to jumpstart recovery

At each neighborhood level

1. COMPOST as top soil was blown by typhoon
2. WATER DRUMS to collect rain water for drinking and irrigation during dry, summer months
3. Anahaw or sago seedlings for mid-term roofing supply

With each family

4. Longer term seeds to diversify families' current stock
5. Training for and seeds for natural wind barriers

*South Poblacion overcounted families for the first tranche. Excess packs were given to families who had an extended stay in the evacuation center since their house got destroyed.

**Puan undercounted families for the first tranche. They initially provided the number of households and provided the correct number considering multiple families in some households.
